She Code Africa Frontend
Bootcamp | 2025

ABOUT ME

- Frontend Developer skilled in React, HTML, CSS, and JavaScript. Experienced in building responsive and dynamic web applications using APIs. Passionate about creating user-friendly interfaces and continuously learning modern frontend technologies.

PROJECTS

E-COMMERCE APP | REACT & MOCKAPI

- Developed a fully responsive e-commerce application featuring a multi-page user flow (shop, cart, checkout) and leveraging modern CSS3 for a clean UI/UX.
- Dynamically managed and rendered product inventory by integrating with a MockAPI endpoint, ensuring separation of concerns.
- Engineered the state management for the shopping cart and checkout process using React hooks, resulting in a smooth, intuitive user experience.

CRYPTO PRICE TRACKER | REACT & API

- Developed a crypto tracker showing live price updates from a public API.
- Implemented responsive dashboard and data rendering using React hooks.
- Focused on performance and smooth user experience.

GITHUB USER FINDER | REACT & GITHUB API

- Created a GitHub search app that displays users, repositories, and profile image
- Integrated GitHub API for live user data and handled search errors gracefully.
- Used React hooks for data fetching and UI updates.
